

HIDROFAB/AR

WATER BASE DIRT PROOF MATT POLYMER

DESCRIPTION:

HIDROFAB/AR is a specific water based polymer for surface treatment of natural stone surfaces. Product protects material in high traffic areas from dirt/scratches, supplying the surface a protective "mat look" effect. Excellent adhesion and water/dirt repellent properties, treatment allows surface to breathe without changing the natural stone colours or eventual yellowing. Treatment will not build-up and does not require periodic stripping. Facilitates future floor maintenance.

ADVANTAGES:

- Easy maintenance
- Breathable
- Durable
- Foot traffic resistant
- UV resistant

WHERE TO APPLY:

For internal porous terracotta, marble, granite, structured ceramic and natural stones. For highly absorbent materials we recommend that a pre treatment is carried out using AC300, DREP or HIDRO 150 before proceeding with the application..

COVERAGE:

20-30 m²/l (referring to dilution and type of material)

CAN BE APPLIED WITH:

USE:

Dilute only when applying to porcelain stoneware or when using as periodic maintenance on a pre treated surface.

First Application:

Apply by cloth, mop or lamb's wool applicator on clean and dry surfaces. Smooth out any uneven product applications and excess. Allow approx 4 hours curing time, before resuming normal use of the treated surface. (if necessary, apply a second coat to the surface after 4 hours from the first.)

Maintenance:

The frequency of maintaining floor surfaces depends on amount of foot traffic and surface stress.

Dust mop surface and remove surface debris before proceeding. Apply a diluted solution of HIDROFAB/AR and water (dilution ratio 1:4) by mop or lamb's wool applicator, applying evenly the product to the area to be maintained. Allow surface to dry for approx 4 hours before resuming normal use of the treated surface.

TECHNICAL DATA:

Aspect	: Liquid – Milky
Color	: white
Odor	: Typical
pH	: 7 - 9
Specific gravity (20 °C)	: 1020 ± 10 g/l

STORAGE: Keep the container closed and in a cool place .

SHELF LIFE: 24 months in the original sealed packing and kept in a cool and dry place .

PACKAGING: 1 lt. bottles (12 per carton) - 5 lt. containers (4 per carton) - lt. canisters (single)

SAFETY:

S2 : Keep out of the reach of children

S25 : Avoid contact with eyes
